BALINESE VILLAGE MASSAGE

60 minutes – IDR 480,000

90 minutes – IDR 640,000

120 minutes – IDR 840,000

This unique massage is inspired by ancient Balinese traditions where each village had its own healer and where no two massages were ever the same.

Based on the ailments one might have, this local village healer would perform specific sequences using healing herbal treatments to restore balance. Massages were a health remedy rather than a luxury experience. When suffering the flu, for example, the healer would ground up spices and herbs into a paste known as a 'boreh' and apply topically to the body to help detoxify body.

During our signature **Balinese Village Massage**, our trained spa artisans will curate a massage tailored to your personal needs. Feeling sluggish? We suggest a more vigorous deep tissue release massage to soften the muscles, improve circulation and leave you feeling recharged. Suffering tech-neck? We focus more on your upper back, neck and shoulder area and apply warm ginger packs to remedy computer fatigue and tension. Experiencing sleep issues? We deliver a slow and mindful face, neck and scalp massage to ease you into a deep slumber.

As in the tradition of the Balinese village healer, no two massages will ever be the same. Our signature **Balinese Village Massage** is tailored to rebalance, heal and cure at a deeper level.
